DETAILED ACTION

1. Claims 1 – 38 are presented for consideration.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-38 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-63 of U.S. Patent No. 6,785,741 [hereinafter as '741 patent]. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are claiming common subject matter as follow:

As per claim 1, a programmable agent workstation system in a directory assistance system (DAS) network, comprising:

a JavaPhone means ...;

a PlusTcp means ...; and

a PlusTapi means ...;

Art Unit: 2154

wherein

said JavaPhone means provides ...;

said PlusTcp means provides ...;

said PlusTapi means

The claims of '741 patent do not specifically state the JavaPhone, PlusTcp, and PlusTapi means as described in the claim 1 of instant application but it would have been obvious to a person skill in the art to recognize that the two set of claims are similar because they performs the means and functions which provide interactive IP telephony support with H.323 protocol.

As per independent claims 28 and 34, they are rejected under the judicially created doctrine of obvious-type double patenting as claim 1 above.

As per dependent claims 2-27, 29-33 and 35-38, they are rejected for rejected under judicially created doctrine of obvious-type double patenting as being unpatentable over claims 2-63 of the '741 patent.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 28-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. The following terms lack antecedent basis:

I. the IWSP - claims 28 and 34.

Art Unit: 2154

5. A shortened statutory period for response to this action is set to expire **3 (three) months and 0 (zero) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
